ENGRAVED BRICKS

Custom **engraved bricks** are a commonly used tool in community fundraising. Institutions such as libraries, schools, and hospitals are turning to brick fundraisers to raise money and beautify their buildings and communities at the same time. By using laser engraved bricks, the organization can reward its supporters with permanent donor recognition. We also offer custom **signature brick** engraving for builders and developers, it's a great way to build brand recognition. Engraved brick pavers are a very profitable fundraising idea.

OUR BRICK ENGRAVING TECHNIQUE

Our advanced brick engraving technology utilizes a hybrid method that combines laser engraving and sandblasting allowing us to engrave complicated logos, clip art, and custom artwork on both concrete and clay bricks. Many brick engravers are not able to engrave on harder material like concrete or granite and if they do they charge more. We charge the same **price** for concrete or clay bricks. We include a **lifetime warranty** on all of our brick engravings and we have not had a single project claim in over 17 years of business to replace an engraving project. Call us for high quality brick engraving and unmatched customer support with your fundraiser 1-800-546-7993.

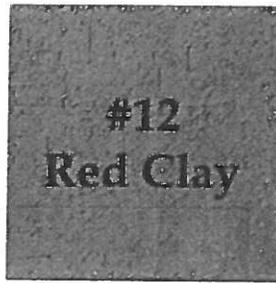

ENGRAVING ON CONCRETE BRICKS / PAVERS

We use the highest quality concrete bricks on the market to ensure your engraved bricks will remain beautiful for years to come. Our concrete bricks are durable and have been tested by our customers for the last 17 years. The majority of the organizations we work with choose to use concrete bricks for their projects. All of our concrete engraved pavers meet ICPI (Interlocking Concrete Pavement Institute) standards and you can visit **ICPI** for more information.

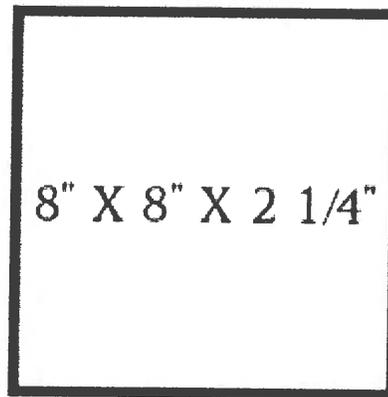

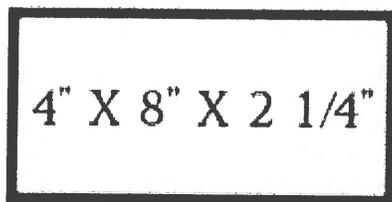

CLAY BRICKS

Our clay bricks are the highest quality you can find on the market. It's much denser and harder than typical clay bricks. It is a rich dark hue of red with an antique attractive look. We do not make any compromises when it comes to quality, we only use the best!

CLAY BRICK COLOR AND SIZES

Our clay bricks are available in the sizes below:

ENGRAVING ON YOUR OWN BRICK

If you plan on using your own bricks we can engrave them for you. There will be a one time set up fee of \$20 per size of brick so we can create a template for your bricks. The process is very simple: If you want to use your bricks, just mail us a sample brick to test the brick quality. A few days later you'll receive your brick back engraved with your choice of text and logo. Your organization will be able to make its decision based on the high quality of the sample and the best pricing in the industry. The price of the engraving will be the same if your brick sizes match our sizes. Our machines can engrave up to 18" x 32" if you have custom size bricks or bricks in other shapes. If you have odd shapes other than rectangular or square we can get you a custom quote.

DESIGN AND STYLE

We are able to engrave in any font you choose and in any language at no additional cost. Not only will your brick or tile project be beautiful, it will also be unique. Adding a clip art or a logo is \$6 per engraved image with no additional setup fee. If you have questions concerning what look you would like for your bricks please feel free to give us a call. Also feel free to try our **brick creator** tool to see what fonts might work best for you.

CHARACTERS AND SPACING FOR ENGRAVING

Depending on the font selected, we suggest 18 to 20 spaces per line (including blank spaces, letters and characters). This is our standard for engraved bricks or tiles

WITHOUT clip art. With clip art we suggest no more than 15 spaces per line for 4" x 8" brick or tile. Below is a chart with specific information for each brick and tile size. Please **contact us** if you have a special requirement, we're very flexible and would be happy to answer any questions you might have.

Brick Size	Text Only	With Clip Art/Logo
4"x8"	Up to 20 spaces, 3 lines	Up to 15 spaces, 3 lines
8"x8"	Up to 20 spaces, 6 lines	Up to 20 spaces, 5 lines
12"x12"	Up to 20 spaces, 8 lines	Up to 20 spaces, 7 lines
