(Ord. No. 92-06, 12-14-1992; Ord. No. 99-01, § 12, 4-26-1999)

- **Section 8.11. - Central business (B-3).**

The following standards shall apply to uses in the central business district:

1. There is no minimum distance between adjacent buildings, nor a minimum building setback from a property line, provided that one of the first two of the following conditions are met:
 - (a) If the distance from the exterior wall to the property line is less than five feet, the applicant must show evidence of a maintenance easement from adjacent property owner(s); or
 - (b) The structure shall be built on the property line and the owner shall give an attachment easement to the adjacent property owner(s).
 - (c) When a building exceeds 25 feet in height, the minimum distance from an adjacent building or property line shall be increased by two feet for each story above two. (For example, where a two-story building is adjacent to a three-story building, and the minimum distance between the buildings is less than seven feet, a maintenance easement shall be required as stated in (a) above. The same procedure applies where three or more buildings are clustered. For each story above two in each building, two feet are added to the minimum distance allowed between the buildings without evidence of a maintenance easement.)
 - (d) Development in the central business district may be built up to a proposed right-of-way line of an abutting roadway. There are no building setbacks from an abutting right-of-way in the central business district. However, buildings, signs or other structures shall not obstruct the vision of vehicle operators nor protrude into the right-of-way.
