

The Florida Department of Transportation (FDOT), Florida's Turnpike Enterprise is in the planning phase of the **COASTAL CONNECTOR**, a high-level study that is evaluating new transportation corridor alternatives in Citrus and Marion Counties. The study aims to establish a new vision for transportation by incorporating emerging transportation technologies to improve freight movement, address seasonal congestion, accommodate projected growth, and plan for emergency evacuation to create **Florida's Next Generation Corridor**.

Florida's Turnpike Enterprise will hold a Corridor Alternatives Public Meeting at two locations. The meetings are being conducted to give interested persons an opportunity to express their views concerning preliminary corridor alternatives. The meetings will be held as an informal open house with an informational video, display boards and maps available for review. The information will be the same at each meeting.

In the event that the subject meetings cannot be held due to severe weather or other unforeseen conditions, the meetings will be held at the same times on the alternate dates of May 8, 2018, at the Hilton Ocala, and May 15, 2018, at the National Guard Armory.

If you cannot attend the meeting in person, please participate by visiting the study website starting on April 26, 2018, for an online version of the meeting. This online meeting will be accessible anywhere, anytime, and will provide the same information presented at the in-person meeting.
